

VOICE RECOGNITION

Key Functions by Voice Command

Control four different systems with the steering wheel buttons and the ceiling microphone.

To reduce the potential for driver distraction, certain manual and touch screen functions may be inoperable or grayed out while the vehicle is moving. Voice commands are always available.

Pick-Up button: Answer an incoming call, or go directly to the Phone screen.

Hang-Up/Back button: End a call, decline an incoming call, or cancel a selection.

Talk button: Give navigation, HFL, audio, or climate control commands.

Voice Command Tips

- **Press and release** the Talk button, wait for a beep, then say a command.
- All available voice commands are highlighted in blue when you press the Talk button.
- For a list of available commands, **press and release** the Talk button and say **“Help”** at any time.
- Speak in a clear, natural voice.
- Reduce all background noise.
- Adjust the dashboard and side vents away from the microphone in the ceiling.
- Close the windows.
- The system also uses a touchscreen display. You can select options or icons by touching them on the screen. This is limited while the vehicle is moving.

To keep your eyes on the road and hands on the wheel, use voice commands for hands-free calling, navigation, and audio. For a full list of commands, say **“Display Information”** and **“Voice Info.”**
