

# REAR ENTERTAINMENT SYSTEM (RES) EXL TRNG

With the rear entertainment system (RES) and wireless headphones, the rear passengers can enjoy a different entertainment source than the front seat occupants.

## RES Front Panel Controls

## Operating the RES from the Rear Seat

1. Press the REAR PWR button from the front audio panel, then **press** the PWR button on the rear control panel to turn on the RES.
3. Use the (▲) (▼) (◀) (▶) buttons to navigate the menu on the display. Press the ENT button to select a function.

2. Press AM/FM, XM, CD, or DVD/AUX to make a selection.
4. The rear control panel can be detached and used as a remote control. **Press** the RELEASE button to remove it from the ceiling.

## Operating the RES from the Front Seat

1. Press the REAR PWR button. Rear passengers will hear audio through the wireless headphones.
3. Press the REAR SOURCE button to hear what is currently playing in the rear.

2. Press the REAR CTRL OFF button to disable the rear audio controls.

4. After selecting an entertainment source for the rear passengers, **press** the FRONT SOURCE button to return to the front audio controls.

## Rear Entertainment System

Press OPEN to release the overhead screen.

Pivot the overhead screen to fully open it.
