VOICE RECOGNITION

To keep your eyes on the road and hands on the wheel, use voice commands for hands-free calling, navigation, and audio. For a full list of commands, say "Information" and "Voice Info."

Key Functions by Voice Command

Control three different systems with the steering wheel buttons and the ceiling microphone.

To prevent driver distraction, certain manual and touch screen functions may be inoperable or grayed out while the vehicle is moving. Voice commands are always available.

or go directly to the Phone screen. Hang-Up/Back button: End a call, decline an incoming call, or cancel a selection.

Talk button: Give navigation, HFL, or audio commands.

• Press and release the Talk button, wait for a beep, then give a command.

Voice Command Tips

- All available voice commands are highlighted in blue when you press the Talk button.
- · For a list of available commands, press and release the Talk button and say "Help" at any time.
- Speak in a clear, natural voice. · Reduce all background noise.
- Adjust the dashboard and side vents away from the microphone in the ceiling.
- Close the windows.
- The system also uses a touch screen display. You can select options or icons by
- touching them on the screen.
- Commonly Used Voice Commands

Here are some examples of commonly used voice commands. Try some of these

to familiarize yourself with the voice command system.

Press and release the Talk button before you give a command.
