

## NAVIGATION

### Entering a Destination Using Voice Commands

Set a destination using a street address. For other destination options, see your Navigation Manual.

Press and release the Talk button before you say a command.

1. Say "Display menu." Say "Address."
2. Say "Street," then say the street name on the next screen. Do not include the direction (N, S, E, W) or type (St., Ave., Blvd., etc.).
3. A list of street names appears. Say the number next to the street you want to select.
4. Say the entire street address number. For example, "1-2-3-4." If necessary, say "OK" to proceed.
5. If the street address is in more than one city, a list of city names appears. Say the number next to the city you want to select.
6. The system displays the "Calculate route to" screen. Say "Set as destination" to set the route.

**Note:** If menu options are grayed out, they are only available using voice commands. It is recommended that you enter your destination before driving or when the vehicle is stopped.

Real-time navigation system uses GPS and a map database to show your current location and help guide you to a desired destination.

### Map Screen Legend

### Turn-by-Turn Directions

Shows a more detailed view of the next maneuvers during route guidance on the multi-information display. See your Owner's Manual for instructions on how to turn this feature on or off.

### Using the "Find Nearest" Command

Find a nearby point of interest, such as a gas station, movie theater, restaurant, etc.

Press and release the Talk button before you say a command.

1. From the map screen, say "Find nearest ATM."
2. A list of the nearest ATMs in your area is displayed by shortest distance to destination.
3. Say the number next to the destination you want to select.
4. The system displays the "Calculate route to" screen. Say "Set as destination" to set the route.

### FM Traffic

Provides continuously updated information, including traffic speed, incidents, and construction in major metro areas. Works in cities where a clear FM traffic signal is available.

Press and release the Talk button before you say a command.

#### Displaying Traffic Information

Say "Display traffic" to view highway flow data.

#### Traffic Icons:

**Note:** Traffic flow and incident icons are only displayed on map scales of 5 miles (8 km) or less.

#### Traffic Rerouting

When a route is already set, you can create a detour to avoid traffic incidents or congestion.

1. Say "Display traffic list" to view a list of incidents on your route.
2. Say the number of the incident you want to avoid. When the incident appears, say "Traffic detail."
3. Say "Avoid," and the incident list returns.
4. Say "Reroute" to set the new route.

### Driver Distraction

To reduce the potential for driver distraction, certain functions may be inoperable or grayed out while the vehicle is moving. You may have to use voice commands, stop or pull over to perform the function.

The chart below shows a list of some operations that are restricted while the vehicle is moving.
