VOICE RECOGNITION

Key Functions by Voice Command

Control different systems with the steering wheel buttons and the ceiling microphone.

To reduce the potential for driver distraction, certain manual and touch screen functions may be inoperable or grayed out while the vehicle is moving. Voice commands are always available.

Pick-Up button: Answer an incoming call, or go directly to the Phone screen.

Hang-Up/Back button: End a call, declinean incoming call, or cancel a selection.

Talk button: Give navigation, HFL, or audio commands.

Voice Command Tips

- Press and release the Talk button, wait for a beep, then say a command.
- All available voice commands are highlighted in blue when you press the Talk button.
- For a list of available commands, press and release the Talk button and say "Help" at any time.
- Speak in a clear, natural voice.
- Reduce all background noise.
- Adjust the dashboard and side vents away from the microphone in the ceiling.
- Close the windows.
- The system also uses a touchscreen display. You can select options or icons by touching them on the screen. This is limited while the vehicle is moving.

Commonly Used Voice Commands

Here are some examples of commonly used voice commands. Try some of these to familiarize yourself with the voice command system.

Press and release the Talk button before you say a command.
