

## VOICE RECOGNITION (if equipped)

### Key Functions by Voice Command

Control three different systems with the steering wheel buttons and the ceiling microphone.

**To prevent driver distraction, certain manual and touch screen functions may be inoperable or grayed out while the vehicle is moving. Voice commands are always available.**

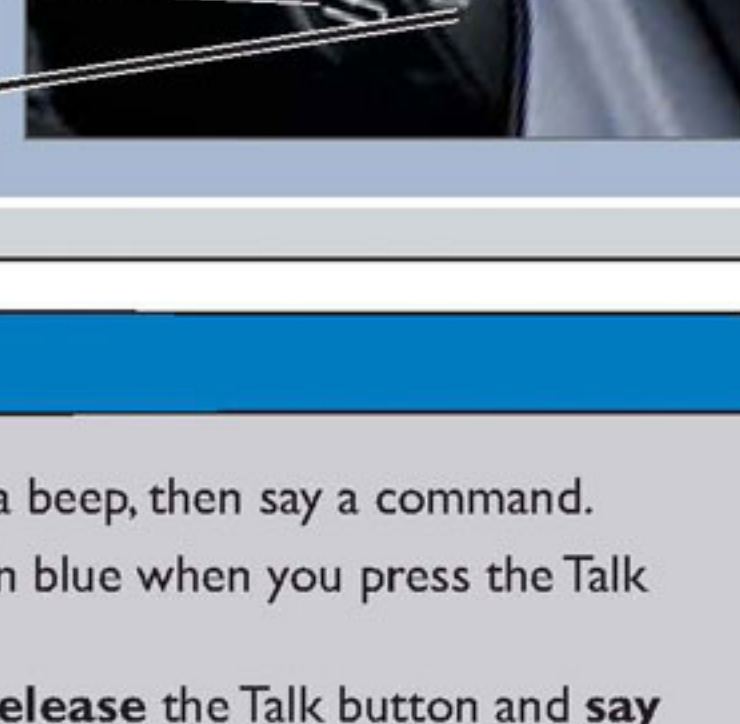

**Pick-Up button:** Answer an incoming call, or go directly to the Phone screen.

**Talk button:** Give navigation, HFL, or audio commands.

**Back button:** Cancel a command and return to the previous screen.

**Hang-Up:** End a call or decline a call.

### Voice Command Tips

- **Press and release** the Talk button, wait for a beep, then say a command.
- All available voice commands are highlighted in blue when you press the Talk button.
- For a list of available commands, **press and release** the Talk button and say "Help" at any time.
- Speak in a clear, natural voice.
- Reduce all background noise.
- Adjust the dashboard and side vents away from the microphone in the ceiling.
- Close the windows.
- The system also uses a touch screen display. You can select options or icons by touching them on the screen. This is limited while the vehicle is moving.

To keep your eyes on the road and hands on the wheel, use voice commands for hands-free calling, navigation, and audio. For a full list of commands, say "Information" and "Voice Info."

### Commonly Used Voice Commands

Here are some examples of commonly used voice commands. Try some of these to familiarize yourself with the voice command system.

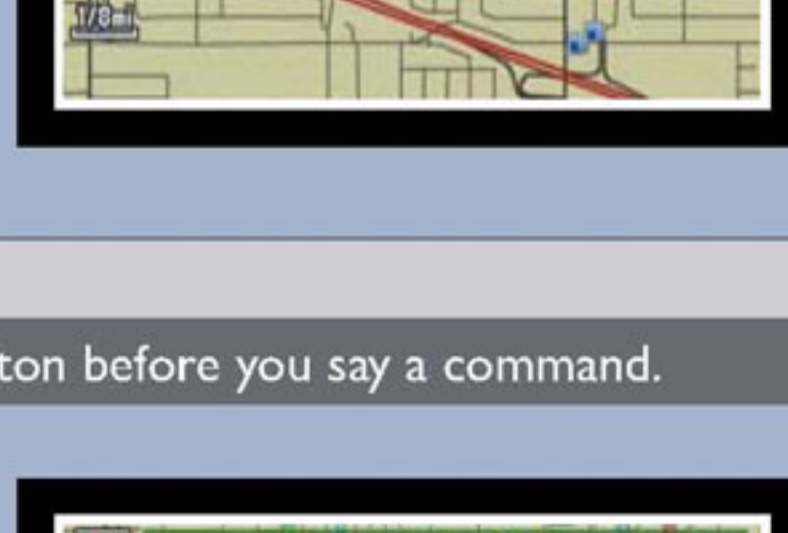

Press and release the Talk button before you say a command.

#### Locate Points of Interest

Say a command like "Display restaurant" to see restaurant icons appear on the map.

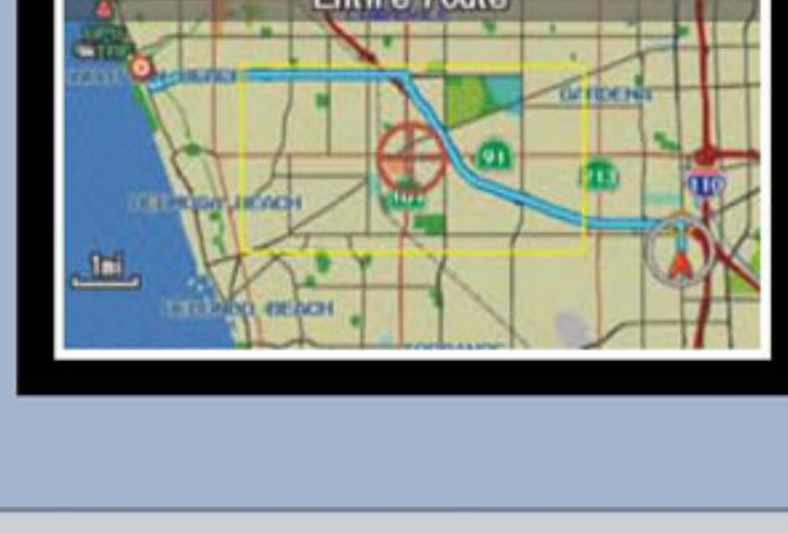

Say a command like "Display gas station" to see gas station icons appear on the map.

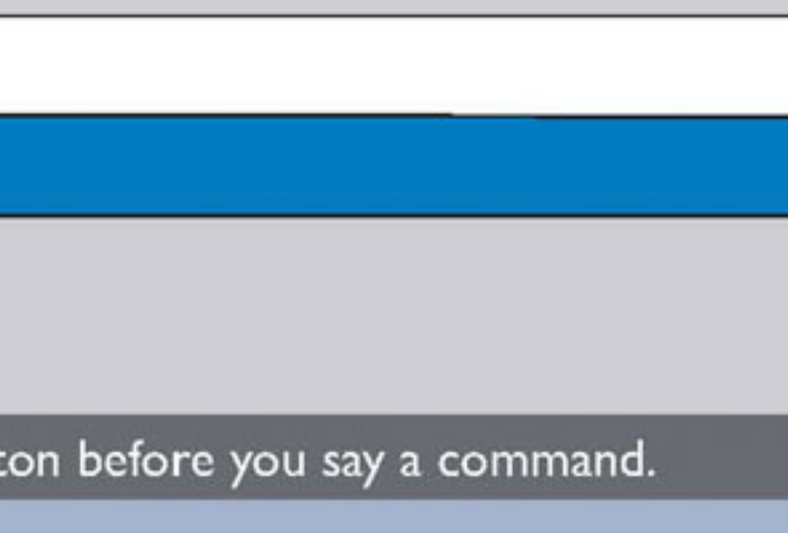

Press and release the Talk button before you say a command.

#### Get Navigation Route Information

After a destination is entered, say "How far to the destination?" to hear the remaining distance.

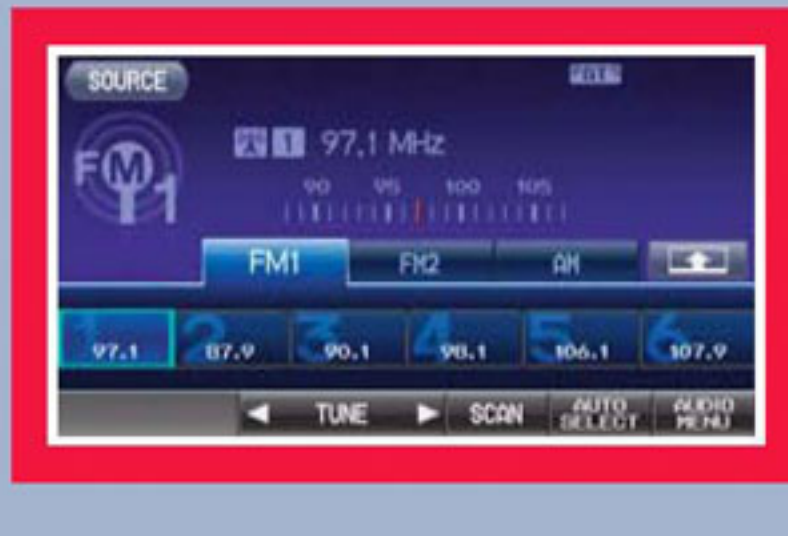

Say "Display entire route" to see the routing method the system mapped for your destination.

Press and release the Talk button before you say a command.

#### Make Audio Selections

Say a command like "Radio 97.1 FM" to select that station.

Say a command like "DISC play track 1" to hear that song on a currently inserted CD.

Say a command like "USB play" to begin playing audio files from a connected flash memory device.

Say a command like "Bluetooth audio play" to a paired phone (see page 20).

### Commonly Used Voice Commands (continued)

Here are some examples of commonly used voice commands. Try some of these to familiarize yourself with the voice command system.

Press and release the Talk button before you say a command.
