

## NAVIGATION

Real-time navigation system uses GPS and a map database to show your current location and help guide you to a desired destination.

### Entering a Destination Using Voice Commands

For information on setting other destination options, see your Navigation Manual.

#### Using a Street Address

Press and release the  Talk button before you say a command.

1. Say "Display menu." Say "Address."
2. Say "Street," then say the street name on the next screen. Do not include the direction (N, S, E, W) or type (St., Ave., Blvd., etc.).
3. A list of street names appears. Say the number next to the street you want to select.
4. Say the entire street address number. For example, "1-2-3-4." If necessary, say "OK" to proceed.
5. If the street address is in more than one city, a list of city names appears. Say the number next to the city you want to select.
6. The map displays the "Calculate route to" screen. Say "Set as destination" to set the route.

#### Using the "Find Nearest" Command

Press and release the  Talk button before you say a command.

1. From the map screen, say "Find nearest ATM."
2. A list of the nearest ATMs in your area is displayed by shortest distance to destination.
3. Say the number next to the destination you want to select.
4. Say "Set as destination" to set the route.

**Note:** It is recommended that you enter your destination before driving or when the vehicle is stopped.

### Map Screen Legend

Calculated route

Direction of destination

Distance to go

Time to go

Current vehicle location

### Turn-by-Turn Directions

Shows a more detailed view of the next maneuvers during route guidance on the i-MID. See your Owner's Manual for instructions on how to turn this feature on or off.

Distance to next maneuver

Upcoming maneuver

Current route

### FM Traffic

Provides continuously updated information, including traffic speed, incidents, and construction in major metro areas. Works in cities where a clear FM traffic signal is available.

Press and release the  Talk button before you say a command.

#### Displaying Traffic Information

Say "Display traffic" to view highway flow data.

**Heavy traffic**

**Moderate traffic**

**Note:** Traffic flow and incident icons are only displayed on map scales of 5 miles or less.

#### Traffic Icons

 Incident  Road closed

 Construction  Weather

Press and release the  Talk button before you say a command.

#### Traffic Rerouting

When a destination is already set, you can create a detour to avoid traffic incidents or construction.

1. Say "Display traffic list" to view a list of incidents on your route.
2. Say the number of the incident you want to avoid. When the incident appears, say "Traffic detail."
3. Say "Avoid," and the incident list returns.
4. Say "Reroute" to set the new route.

### Driver Distraction

To reduce the potential for driver distraction, certain functions may be inoperable or grayed out while the vehicle is moving. You may have to use voice commands, stop or pull over to perform the function.

The chart below shows a list of some operations that are restricted while the vehicle is moving.
