NAVIGATION (if equipped)

Entering a Destination

Using Voice Control

1. **Say** “Display menu” and “Address.”
2. **Say** “Street” followed by the street name. Do not include the direction (N, S, E, W) or type (St., Ave., Blvd., etc.).
3. **Say** the number next to the street you want to select.
4. **Say** the entire street address number. For example, “1-2-3-4.”
5. If the street address is in more than one city, a list of city names appears. **Say** the number next to the city you want to select.
6. The system calculates the route and displays the “Calculate route to” screen. **Say** “OK” to set the route.

Using the Find Nearest Command

1. **Say** “Find nearest ATM.”
2. A list of the nearest ATMs in your area is displayed by shortest distance to destination.
3. **Say** the number next to the destination you want to select.
4. The system calculates the route and displays the “Calculate route to” screen. **Say** “OK” to set the route.

Real-time navigation system uses GPS and a map database to show your current location and help guide you to a desired destination.
