Basic HFL Operation

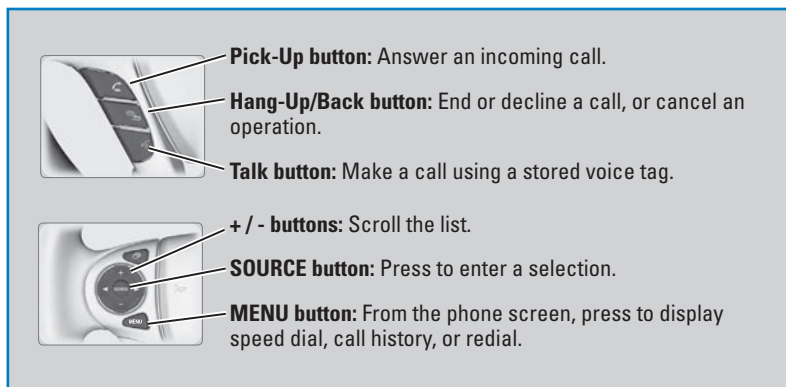

Make and receive phone calls using the vehicle's audio system, without handling your phone. Visit handsfreelink.com to check phone compatibility.

When your iPhone is connected to Apple CarPlay or Android Auto, calls can only be made through Apple CarPlay or Android Auto, not through *Bluetooth* HandsFreeLink.

To reduce the potential for driver distraction, certain manual functions may be inoperable or grayed out while the vehicle is moving. Stop or pull over to perform the function. Voice commands are also available.

■ HFL Controls

Use the controls to enter information and make selections.

■ Talk Button Tips

- When using the Talk button, wait for a beep before saying a command.
- To bypass the system prompts, simply press the Talk button again to say your command.
- When the Talk button is pressed, all available voice commands are highlighted in yellow.
- Speak in a clear, natural voice.
- Reduce all background noise.
- Close the windows and moonroof.
