

Your vehicle has a voice control system that allows hands-free operation of the navigation system functions.

The voice control system uses the  (Talk) and  (Back) buttons on the steering wheel and a microphone near the map lights on the ceiling.

For details of the  (Talk) button,  (Back) button and microphone position, see the Owner's Manual.

Voice Recognition

To achieve optimum voice recognition when using the navigation voice control system:

- Make sure the correct screen is displayed for the voice command that you are using. The system recognizes only certain commands.

Available navigation commands:

Voice Commands

- Close the windows and moonroof*.
- Adjust the dashboard and side vents so air does not blow onto the microphone on the ceiling.
- Speak in a clear, natural speaking voice without pausing between words.
- Reduce any background noise if possible. The system may misinterpret your command if more than one person is speaking at the same time.

Voice Control System

When you press the  (Talk) button, the system prompts you to say a voice command. Press and release the  (Talk) button again to bypass this prompt and give a command.

Voice Recognition

The voice control system can only be used from the driver's seat because the microphone unit removes noises from the front passenger's side.

* Not available on all models

Navigation Commands

The system recognizes only the commands on the following pages.

Voice Portal Commands

Navigation

Navigation Commands

The system accepts navigation commands from the voice portal screen and the navigation voice recognition screen.

Show Map
Go Home
Find Place
Find Address
Find City
Find Intersection
