

Models with Display Audio

System Updates

The audio system's firmware can be updated with a Wi-Fi connection, or with a USB device.

■ How to Update Wirelessly

Wireless connection mode setup

If your vehicle has a telematics control unit (TCU), you do not need the wireless connection mode setup.

1. Press the **HOME** button, then select **System Updates**.
2. Select **Settings**, then select **Connection Setup**.
3. Select **Wi-Fi**, then select **Change Mode**.
4. Select **Network**, then select **Confirm**.
The display returns to the network list.
5. Select an access point from the network list, then select **Save**.
If the audio system requires a password, enter a password.

■ How to Update

When the audio system update is available, the notification is shown on the audio/information screen. Use the following procedure to update the system:

1. Press the **HOME** button.
2. Select **System Updates**.
3. Select **via Wireless**. If a notification is displayed on the screen, the screen of step 5 will be displayed.
4. Select **Download Now**. A notification appears on the screen.
5. Select **Install Now** or **Install while Vehicle OFF**. A notification appears on the screen if the update is successful.

For battery protection, **Install while vehicle OFF** cannot be selected when the battery is low on power. If you want to install the updated data, recharge the battery or select **Install Now**.

**if equipped*

■ How to Update with a USB Device

Download the update files from the server.

- 30 Press the **HOME** button, then select **System Updates**.
- 40 Select **via USB**. A notification appears on the screen.
- 50 Connect a USB device into the USB port in the center pocket or console compartment. (see p. The inventory data is copied into the USB device.
- 60 Remove the USB device from the USB port.
- 70 Connect the USB device into your computer and download the update" files. Follow the link to download the required software update files. See" <https://usb.honda.com> for more details.

Install the update

1. Press the **HOME** button, then select **System Updates**, and then **via USB**. A notification appears on the screen.
2. Connect the USB device with the update files to the USB port. A notification appears on the screen.
3. Select **Install Now**. A notification appears on the screen if the update is successful.

Notes

- Honda recommends using a flash drive with a minimum of 8 GB of free space or more.
- Be sure to delete any previous inventory or update files from the USB before starting the USB update process.
