Social Playlist

Use the Honda CabinControl smartphone app to build a playlist from music on personal devices connected to the vehicle's WiFi network.

■ Playlist Editing

Use the touchscreen to manage the social playlist.

1. Select Home.
2. Select Social Playlist
3. Select Queue.
 - To play a song, select it from the list.
 - To remove a song, select the X for that song in the list.
 - To clear the playlist, select Clear Queue.
