# AUDIO AND CONNECTIVITY

Learn how to operate the vehicle's audio system.

## Basic Audio Operation
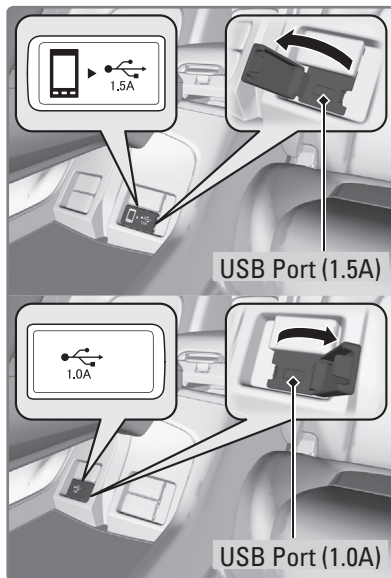

Connect audio devices and operate buttons and displays for the audio system.

■ **USB Port**

1. Open either USB cover in the front console.

2. Connect a USB flash drive or iPod/iPhone cable connector to the USB port.

   The USB port (1.5A) is for charging devices, playing audio files and connecting for Apple CarPlay or Android Auto.
   The USB port (1.0A) is for playing audio files, connecting a phone, and charging devices.

## USB Flash Drive

Play and operate a USB flash drive through the vehicle's audio system.
Connect your device to the USB port.

**Source:** Select the USB icon.

**Open/close:** Display or hide the track list.

**Folder:** Change the folder.

**Track:** Change the track.

**MENU:** Display menu options, including Music Search.

### ■ Searching for Music

Use the touchscreen to search for tracks stored on the USB flash drive.

1. From the audio screen, press MENU.
2. Select Music Search.
3. Select Music.
4. Select a folder.
5. Select the track.

On vehicles with navigation, you can also search for and play music from the flash drive using Song By Voice.
