BLUETOOTH® HANDSFREELINK®

Learn how to operate the vehicle's hands-free calling system.

Basic HFL Operation

Make and receive phone calls using the vehicle's audio system, without handling your phone. Visit *automobiles.honda.com/handsfreelink/* (U.S.) or phone (888) 528-7876 (Canada) to check phone compatibility.

To reduce the potential for driver distraction, certain manual functions may be inoperable or grayed out while the vehicle is moving. Voice commands are always available.

■ **HFL Displays and Controls**

Use the controls to enter information and make selections.

Models with Display Audio

■ **Talk Button Tips**

When using the Talk button, wait for the beep before saying a command. The system recognizes only the commands listed in the Voice Command Index.

- Aim the vents away from the ceiling and close the windows, as noise coming from them may interfere with the microphone.

- Press and release the talk button when you want to call a number using a stored voice tag. Speak clearly and naturally after a beep.

- If the microphone picks up voices other than yours, the command may be misinterpreted.

- To change the volume level, use the audio system's volume knob or the remote audio controls[1] on the steering wheel.

Pairing a Phone

To use hands-free phone and streaming audio functions, you must first pair your phone to the system. This can only be done when the vehicle is stopped. Use the selector knob or the Display Audio to make and enter selections
