

AUDIO AND CONNECTIVITY

How to operate the vehicle's audio system.

Basic Audio Operation

Connect audio devices and operate buttons and displays for the audio system.

Note: When the screen is viewed through polarized sunglasses, a rainbow pattern may appear on the screen due to optical characteristics of the screen.

■ USB Port

Models with Color Audio

Install the device USB connector or the USB flash drive to the USB port.

The USB port (1.0A) is for playing audio files on a USB flash drive and connecting a cellular phone and charging device.

*2: U.S. models only

Models with Display Audio

The USB port (1.5A) is for charging devices, playing audio files and connecting compatible phones with Apple CarPlay[®] or Android Auto[™]

In the console compartment^{*1}

The USB port (1.0A) is for playing audio files on the USB flash drive and connecting a cellular phone and charging device.

Move the removable beverage holder tray rearward.

**1 - If equipped*

Tip: To prevent any potential issues, be sure to use an Apple MFi Certified Lightning Connector for Apple CarPlay® or a USB cable certified by USB-IF to be compliant with USB 2.0 Standard for Android Auto™.

■ Accessory Power Socket

There is an accessory power socket in the front console panel. It can be used when the vehicle is ON or in ACCESSORY Mode.

Open the cover to use it.

NOTICE

Do not insert an automotive type cigarette lighter element. This can overheat the power socket.

■ Adjusting the Sound

Models with Color Audio

Press the sound button and rotate the selector knob to scroll through the following choices.

- Bass
- Middle
- Treble
- Fader
- Balance
- Speed-sensitive Volume Compensation

Models with Display Audio

1. Press the Sound button.
2. Select Menu
