

AUDIO AND CONNECTIVITY

How to operate the vehicle's audio system.

Basic Audio Operation

Connect audio devices and operate buttons and displays for the audio system.

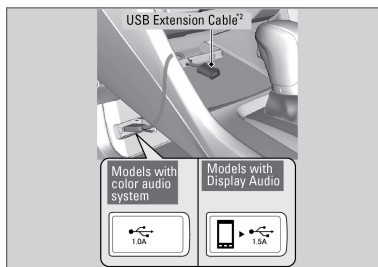

Note: When the screen is viewed through polarized sunglasses, a rainbow pattern may appear on the screen due to optical characteristics of the screen.

■ USB Port

Models with Color Audio

Install the device USB connector or the USB flash drive to the USB port.

The USB port (1.0A) is for playing audio files on a USB flash drive and connecting a cellular phone and charging device.

*2: U.S. models only

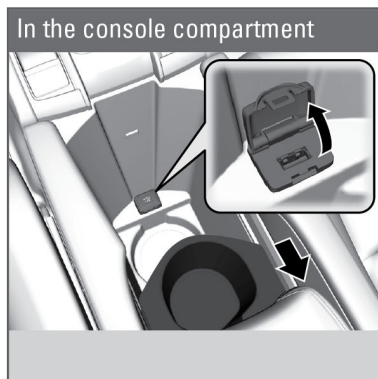

Models with Display Audio

The USB port (1.5A) is for charging devices, playing audio files and connecting compatible phones with Apple CarPlay[®] or Android Auto[™]

In the console compartment^{*1}

The USB port (1.0A) is for playing audio files on the USB flash drive and connecting a cellular phone and charging device.

Move the removable beverage holder tray rearward.

**1 - If equipped*

Tip: To prevent any potential issues, be sure to use an Apple MFi Certified Lightning Connector for Apple CarPlay® or a USB cable certified by USB-IF to be compliant with USB 2.0 Standard for Android Auto™.
