

AUDIO AND CONNECTIVITY

How to operate the vehicle's audio system.

Basic Audio Operation

Connect audio devices and operate buttons and displays for the audio system.

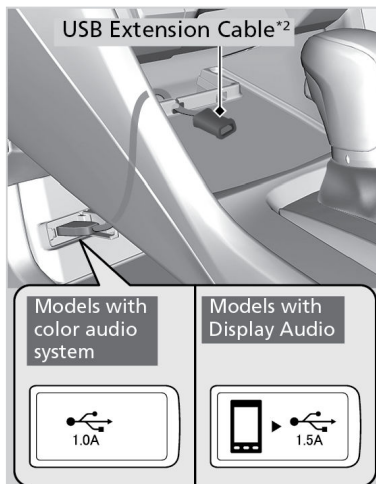

Note: When the screen is viewed through polarized sunglasses, a rainbow pattern may appear on the screen due to optical characteristics of the screen.

■ USB Port

Your vehicle comes supplied with a USB extension cable that runs from the USB port up through to the front console.

Models with Color Audio

The USB port (1.0A) is for playing audio files on a USB flash drive and connecting a cellular phone and charging device.

*2: U.S. models only.

Models with Display Audio

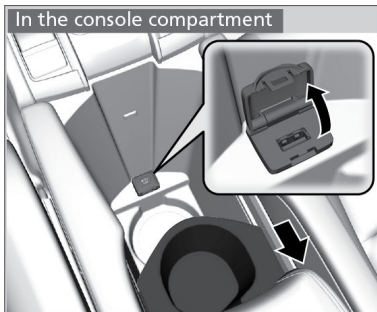

The USB port (1.5A) is for charging devices, playing audio files and connecting compatible phones with Apple CarPlay® or Android Auto™.

In the console compartment*1

*1 - If equipped

The USB port (1.0A) is for playing audio files on the USB flash drive and connecting a cellular phone and charging device.

Move the removable beverage holder tray rearward.

Tip: To prevent any potential issues, be sure to use an Apple MFi Certified Lightning Connector for Apple CarPlay[®] or a USB cable certified by USB-IF to be compliant with USB 2.0 Standard for Android Auto[™].
