

Apple CarPlay®

If you connect an Apple CarPlay®-compatible iPhone® to the system via the USB port, you can use the audio/information screen, instead of the iPhone® display, to make a phone call, listen to music, view maps (navigation), and access messages.

- **Phone:** Access your contacts, make phone calls, or listen to voice mail.
- **Music:** Play music stored on your iPhone®.
- **Maps:** Display Apple Maps and use the navigation function just as you would on your iPhone®.
- **Messages:** View and reply to text messages, or have messages read to you.

Tip: To prevent any potential issues, be sure to use an Apple MFi Certified Lightning Connector for Apple CarPlay®.

Depending on use, Apple CarPlay® can share certain vehicle information (e.g., vehicle location, speed, and other operating conditions) with the connected iPhone®. See Apple's privacy policy for details regarding Apple's use and handling of data uploaded by Apple CarPlay®. Use of Apple CarPlay® is at user's own risk, and is subject to agreement to the Apple CarPlay® terms of use, which are included as part of the Apple iOS terms of use. Apple CarPlay® vehicle integration is provided "as is," and Honda cannot guarantee Apple CarPlay® operability or functionality now or in the future due to, among other conditions, changes in Apple CarPlay® software/Apple iOS, service interruptions, or incompatibility or obsolescence of vehicle-integrated hardware or software. See dealer for details. Only use Apple CarPlay® when conditions allow you to do so safely. See your Owner's Manual at owners.honda.com (U.S.) or honda.ca (Canada) for further license and warranty terms.
