

NAVIGATION

Learn how to enter a destination and operate the navigation system*1.

Basic Navigation Operation

A real-time navigation uses GPS and a map database to show your current location and help guide you to a desired destination. You can operate the system using voice commands or the system controls.

To reduce the potential of driver distraction, certain manual functions may be inoperable or grayed out while the vehicle is moving. Voice commands are always available.

■ Steering Wheel Controls

Use the steering wheel controls to give voice commands. If you press the MENU button on the steering wheel and select Navigation Menu while on the map screen, the following items are available. Use the steering wheel buttons to select the items.

 (MENU) Button

- Go Home
- Recent Destination
- Calculation Mode
- Saved Places
- Stop
- Add New Address

■ System Guidance Volume

Adjust the navigation system volume.

1. From the Home screen, select Settings.
2. Select System.
3. Select the Sound/Beep tab.
4. Adjust the Guidance Volume level.
5. Press BACK to exit the menus.

Navigation Display and Controls

Touch icons on the screen to enter information and make selections.

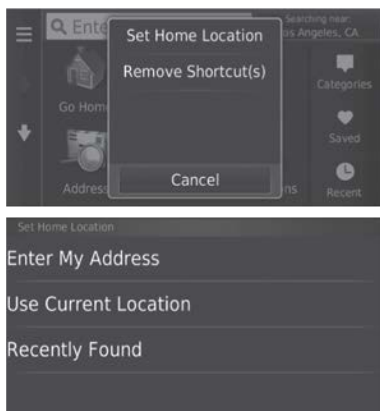

Entering Your Destination

There are several methods to enter a destination.

Home Address

Store your home address in the system so you can easily route to it.

1. Select MAP.
2. Select the search icon.
3. Press the Menu button, then select Set Home Location.
4. Select Enter My Address.
5. Enter the house number, then select Done.
6. Enter the street name, then select Next.
7. Select your street from the list, then select Select.

Street Address

1. Select Map.
2. Select the search icon.
3. Select Address.
4. Enter the house number and select Done if necessary.
5. Enter the street name and select Next.
6. Select an address from the list.
7. Select Go! to set the route to your destination.

Routing

After a destination is set, you can alter or cancel your route.

⚠ WARNING

Using the navigation system while driving can take your attention away from the road, causing a crash in which you could be seriously injured or killed.

Operate system controls only when the conditions permit you to safely do so.
