

Locking and Unlocking the Doors

Key

This vehicle comes with the following keys:

Use the key to start and stop the engine, and to lock and unlock all the doors, fuel fill door and to open the trunk.

Key

All the keys have an immobilizer system. The immobilizer system helps to protect against vehicle theft.

Follow the advice below to prevent damage to the keys:

- Do not leave the keys in direct sunlight, or in locations with high temperature or high humidity.
- Do not drop the keys or set heavy objects on them.
- Keep the keys away from liquids, dust and sand.
- Do not take the keys apart except for replacing the battery.

If the circuits in the keys are damaged, the engine may not start, and the remote transmitter may not work.

If the keys do not work properly, have them inspected by a dealer.

Models with remote engine starter

You can remotely start the engine using the remote.

■ Built-in Key

The built-in key can be used to lock/unlock the doors or open the trunk when the remote battery becomes weak and the power door lock/unlock operation is disabled.

To remove the built-in key, slide the release knob and then pull out the key. To reinstall the built-in key, push the built-in key into the remote until it clicks.

■ Key Number Tag

Contains a number that you will need if you purchase a replacement key.

☒ Key Number Tag

Keep the key number tag separate from the key in a safe place outside of your vehicle. If you wish to purchase an additional key, contact a dealer.

If you lose your key and you cannot start the engine, contact a dealer.

Low Remote Signal Strength

The vehicle transmits radio waves to locate the remote when locking/unlocking* the doors, and fuel fill door, opening* the trunk, or to start the engine.

In the following cases, locking/unlocking* the doors, and fuel fill door, opening* the trunk, or to start the engine may be inhibited or operation may be unstable:

- Strong radio waves are being transmitted by nearby equipment.
- You are carrying the remote together with telecommunications equipment, laptop computers, cell phones, or wireless devices.
- A metallic object is touching or covering the remote.

Low Remote Signal Strength

Communication between the remote and the vehicle consumes the remote's battery.

Battery life is about two years, but this varies depending on regularity of use.

The battery is consumed whenever the remote is receiving strong radio waves. Avoid placing it near electrical appliances such as televisions and personal computers.

Locking/Unlocking the Doors from the Outside

■ Using the Smart Entry System*

When you carry the remote, you can lock/unlock the doors, fuel fill door, and open the trunk.

You can lock/unlock the doors, fuel fill door within a radius of about 32 inches (80 cm) of the outside door handle. You can open the trunk within about 32 inches (80 cm) radius from the trunk release button.

■ Locking the doors

Touch the door lock sensor on the front door.

- ▶ Some exterior lights flash; the beeper sounds; all the doors and fuel fill door lock; and the security system sets.

⊗ Locking/Unlocking the Doors from the Outside

If the interior light switch is in the door activated position, the interior light comes on when you unlock the doors.

No doors opened: The light fades out after 30 seconds.

Doors relocked: The light goes off immediately.

⊗ Using the Smart Entry System*

If you do not open a door within 30 seconds of unlocking the vehicle with the smart entry system, the doors and trunk will automatically relock.

You can lock or unlock doors using the smart entry system only when the power mode is in VEHICLE OFF.

- Do not leave the remote in the vehicle when you get out. Carry it with you.
- Even if you are not carrying the remote, you can lock/unlock the doors while someone else with the remote is within range.
- The door may be unlocked if the door handle is covered with water in heavy rain or in a car wash if the remote is within range.
- If you grip a front door handle or touch a door lock sensor wearing gloves, the door sensor may be slow to respond or may not respond by unlocking or locking the doors.

* Not available on all models

■ Unlocking the doors and trunk

Grab the driver's door handle:

- ▶ The driver's door and fuel fill door unlocks.
- ▶ Some exterior lights flash twice and the beeper sounds twice.

Grab the front passenger's door handle:

- ▶ All the doors and fuel fill door unlock.
- ▶ Some exterior lights flash twice and the beeper sounds twice.

Press the trunk release button:

- ▶ The trunk unlocks and opens.
- ▶ A beeper will sound.

▣ Using the Smart Entry System*

- After locking the door, you have up to 2 seconds during which you can pull the door handle to confirm whether the door is locked. If you need to unlock the door immediately after locking it, wait at least 2 seconds before gripping the handle, otherwise the door will not unlock.
- The door might not open if you pull it immediately after gripping the door handle. Grip the handle again and confirm that the door is unlocked before pulling the handle.
- Even within the 32 inches (80 cm) radius, you may not be able to lock/unlock the doors with the remote if it is above or below the outside handle.
- The remote may not operate if it is too close to the door and door glass.

The light flash, beep and door unlock mode settings can be customized using the audio/information screen.

* Not available on all models

■ Locking the doors (Walk away auto lock®)

When you walk away from the vehicle with all doors closed while carrying the remote, the doors will automatically lock.

The auto lock function activates when all doors are closed, and the remote is within about 5 feet (1.5 m) radius of the outside door handle.

Exit vehicle while carrying remote and close door(s).

1. While within about 5 feet (1.5 m) radius of the vehicle.
 - ▶ The beeper sounds; the auto lock function will be activated.
2. Carry the remote beyond about 5 feet (1.5 m) from the vehicle and remain outside this range for 2 or more seconds.
 - ▶ Some exterior lights flash; the beeper sounds; all doors will then lock.

☒ Locking the doors (Walk away auto lock®)

The auto lock function is set to OFF as the factory default setting. The auto lock function can be set to ON using the audio/information screen. If you set the auto lock function to ON using the audio/information screen, only the remote that was used to unlock the driver's door prior to the setting change can activate auto lock.

After the auto lock function has been activated, when you stay within the locking/unlocking operation range, the indicator on the remote will continue to flash until the doors are locked.

When you stay beside the vehicle within the operation range, the doors will automatically lock approximately 30 seconds after the auto lock function activating beeper sounds.

When you open a door after the auto lock function activating beeper sounds, the auto lock function will be canceled.

Under the following circumstances, the auto lock function will not activate:

- The remote is inside the vehicle.
 - ▶ The beeper will not sound.
- The remote is taken out of its operational range before all the doors are closed.
 - ▶ The beeper will sound.

■ Using the Master Door Lock Switch

Press the master door lock switch in as shown to lock or unlock all the doors and the fuel fill door.

Childproof Door Locks

The childproof door locks prevent the rear doors from being opened from the inside regardless of the position of the lock tab.

■ Setting the Childproof Door Locks

Slide the lever in the rear door to the lock position, and close the door.

■ When opening the door

Open the door using the outside door handle.

► Childproof Door Locks

To open the door from the inside when the childproof door lock is on, put the lock tab in the unlock position, lower the rear window, put your hand out of the window, and pull the outside door handle.

Auto Door Locking/Unlocking

Your vehicle locks or unlocks all doors automatically when a certain condition is met.

■ Auto Door Locking

■ Drive lock mode

All doors lock when the vehicle's speed reaches about 10 mph (15 km/h).

■ Auto Door Unlocking

■ Driver's door open mode

All doors unlock when the driver's door is opened.

☒ Auto Door Locking/Unlocking

You can turn off or change to another auto door locking/unlocking setting using the audio/information screen.

Opening and Closing the Trunk

Precautions for Opening/Closing the Trunk

■ Opening the trunk

Open the trunk all the way.

- ▶ If it is not fully opened, the trunk lid may begin to close under its own weight.

■ Closing the trunk

Keep the trunk lid closed while driving to:

- ▶ Avoid possible damage.
- ▶ Prevent exhaust gas from leaking into the vehicle.

Using the Trunk Opener

Press and hold the trunk opener on the driver's door to unlock and open the trunk.

Using the Trunk Release Button*

Push up the release button on the trunk lid after all the doors are unlocked.

Even if the trunk is locked, you can open the trunk if you carry the remote.

- ▶ Some exterior lights flash twice and the beeper sounds.

Using the Remote Transmitter

Press the trunk release button for approximately one second to unlock and open the trunk.

✘ Using the Trunk Release Button*

- If you forget the remote inside, the beeper will sound and the trunk will not close.
- A person who is not carrying the remote can unlock the trunk if a person who is carrying it is within range.
- If the beeper sounds after you close the trunk, move the remote away from the trunk and close again.
- The remote may not operate if it is too close to the trunk.

✘ Using the Remote Transmitter

If the driver's door is locked, the trunk will automatically lock when you close it. Otherwise, you will have to lock it manually.

* Not available on all models

Trunk Main Switch *

The trunk main switch disables the trunk release button on the remote transmitter and the trunk release button on the trunk lid and trunk opener on the driver's door to protect luggage in the trunk.

1. Make sure the rear seat-back is not folded down.
2. Turn off the trunk main switch in the glove box.
3. Lock the glove box.

Emergency Trunk Opener

The trunk release lever allows you to open the trunk from inside for your safety.

Slide the release lever in the direction of the arrow.

Trunk Main Switch *

If you need to give the key to someone else, remove the built-in key from the remote by sliding the release knob, and give the remote as a valet key.

Emergency Trunk Opener

Parents should decide if their children should be shown how to use this feature.
