

System Updates*

The audio system's firmware can be updated with a Wi-Fi connection, or with a USB device.

How to Update Wirelessly

Wireless connection mode setup

1. Press the  button.
2. Select **System Updates**.
3. Select **Settings**.
4. Select **Connection Setup**.
5. Select **Wi-Fi**.

6. Select **Change Mode**.
7. Select **Network**, then **Confirm**.
 - ▶ The display returns to the network list.
8. Select an access point from the network list, then **Save**.
 - ▶ If the audio system requires a password, enter a password.

Wireless connection mode setup

If your vehicle has a telematics control unit (TCU), you do not need the wireless connection mode setup.

■ How to update

When the audio system update is available, the notification is shown on the audio information screen. Use the following procedure to update the system.

1. Press the  button.
2. Select **System Updates**.

3. Select **via Wireless**.
 - ▶ If a notification is displayed on the screen, the screen of step 5 will be displayed.
4. Select **Download Now**.
 - ▶ A notification appears on the screen.

☒ How to update

You can update the system via Wi-Fi, but cannot use the captive portal that require login or agreement the terms of use on the browser.

Your download will be canceled if:

- Your Wi-Fi connection is severed.
- You turn off the ignition when the battery is low on power.

Your download will recommence the next time a Wi-Fi connection is established.

5. Select **Install Now** or **Install while Vehicle OFF**.

- ▶ A notification appears on the screen if the update is successful.

How to update

For battery protection, **Install while vehicle OFF** cannot be selected when the battery is low on power. If you want to install the updated data, recharge the battery or select **Install Now**.

How to Update with a USB Device

Download the update files from the server

1. Press the  button.
2. Select **System Updates**.
3. Select **via USB**.
 - ▶ A notification appears on the screen.
4. Connect a USB device into the USB port in the center pocket.
 - ▶ The inventory data is copied into the USB device.
5. Remove the USB device from the USB port.
6. Connect the USB device into your computer, and then download the update files.
 - ▶ Follow the link to download the required software update files. Refer to <https://usb.honda.com> for instructions.

How to Update with a USB Device

A USB device with a minimum of 8 GB of free space or more is recommended.

Be sure to delete any previous inventory or update files from the USB before starting the USB update process.

■ Update the audio system

1. Press the  button.
2. Select **System Updates**.
3. Select **via USB**.
 - ▶ A notification appears on the screen.
4. Connect the USB device with the update files into the USB port.
 - ▶ A notification appears on the screen.
5. Select **Install Now**.
 - ▶ A notification appears on the screen if the update is successful.
