

Key Types and Functions

This vehicle comes with the following keys:

Use the keys to start and stop the engine, and to lock and unlock the doors and hatch. You can also use the remote transmitter to lock and unlock the doors and hatch.

Built-in Key*

The built-in key can be used to lock/unlock the doors when the smart entry remote battery becomes weak and the power door lock/unlock operation is disabled.

To remove the built-in key, slide the release knob and then pull out the key. To reinstall the built-in key, push the built-in key into the smart entry remote until it clicks.

* Not available on all models

Key Types and Functions

All the keys have an immobilizer system. The immobilizer system helps to protect against vehicle theft.

Follow the advice below to prevent damage to the keys:

- Do not leave the keys in direct sunlight, or in locations with high temperature or high humidity.
- Do not drop the keys or set heavy objects on them.
- Keep the keys away from liquids, dust and sand.
- Do not take the keys apart except for replacing the battery.

If the circuits in the keys are damaged, the engine may not start, and the remote transmitter may not work.

If the keys do not work properly, have them inspected by a dealer.

Models with remote engine starter

You can remotely start the engine using the smart entry remote with remote engine starter.

■ Key Number Tag

Contains a number that you will need if you purchase a replacement key.

Low Smart Entry Remote Signal Strength *

The vehicle transmits radio waves to locate the smart entry remote when locking/unlocking the doors and hatch, or to start the engine.

In the following cases, locking/unlocking the doors and hatch, or starting the engine may be inhibited or operation may be unstable:

- Strong radio waves are being transmitted by nearby equipment.
- You are carrying the smart entry remote together with telecommunications equipment, laptop computers, cell phones, or wireless devices.
- A metallic object is touching or covering the smart entry remote.

* Not available on all models

▣ Key Number Tag

Keep the key number tag separate from the key in a safe place outside of your vehicle. If you wish to purchase an additional key, contact a dealer.

If you lose your key and you cannot start the engine, contact a dealer.

▣ Low Smart Entry Remote Signal Strength *

Communication between the smart entry remote and the vehicle consumes the smart entry remote's battery.

Battery life is about two years, but this varies depending on regularity of use.

The battery is consumed whenever the smart entry remote is receiving strong radio waves. Avoid placing it near electrical appliances such as televisions and personal computers.

Locking/Unlocking the Doors from the Outside

■ Using the Smart Entry with Push Button Start System *

When you carry the smart entry remote, you can lock/unlock the doors and hatch. You can lock/unlock the doors and hatch within a radius of about 32 inches (80 cm) of the outside door handle or hatch release button.

► Locking/Unlocking the Doors from the Outside

If the interior light switch is in the door activated position, the interior light comes on when you unlock the doors.

No doors opened: The light fades out after 30 seconds.

Doors relocked: The light goes off immediately.

► Using the Smart Entry with Push Button Start System *

If you do not open a door or the hatch within 30 seconds of unlocking the vehicle with the smart entry system, the doors and hatch will automatically relock.

You can lock or unlock doors using the smart entry system only when the power mode is in VEHICLE OFF.

* Not available on all models

■ Locking the doors and hatch

Press the door lock button on the front door or on the hatch.

- Some exterior lights flash; the beeper sounds; all the doors and hatch lock; and the security system sets.

☒ Using the Smart Entry with Push Button Start System *

- Do not leave the smart entry remote in the vehicle when you get out. Carry it with you.
- Even if you are not carrying the smart entry remote, you can lock/unlock the doors and hatch while someone else with the remote is within range.
- The door may be unlocked if the door handle is covered with water in heavy rain or in a car wash if the smart entry remote is within range.
- If you grip a front door handle wearing gloves, the door sensor may be slow to respond or may not respond by unlocking the doors.
- After locking the door, you have up to two seconds during which you can pull the door handle to confirm whether the door is locked. If you need to unlock the door immediately after locking it, wait at least two seconds before gripping the handle, otherwise the door will not unlock.
- The door might not open if you pull it immediately after gripping the door handle. Grip the handle again and confirm that the door is unlocked before pulling the handle.
- Even within the 32 inches (80 cm) radius, you may not be able to lock/unlock the doors and hatch with the smart entry remote if it is above or below the outside handle.
- The smart entry remote may not operate if it is too close to the door and door glass.

The light flash, beep and door unlock mode settings can be customized using the audio/information screen.

* Not available on all models

■ Unlocking the doors and hatch

Grab the driver's door handle:

- The driver's door unlocks.
- Some exterior lights flash twice and the beeper sounds twice.

Grab the front passenger's door handle:

- All doors and the hatch unlock.
- Some exterior lights flash twice and the beeper sounds twice.

Press the hatch release button.

- The hatch unlocks.
- Some exterior lights flash twice and the beeper sounds twice.

■ Locking the doors and hatch (Walk away auto lock®)

When you walk away from the vehicle while carrying the smart entry remote, the doors and hatch will automatically lock.

The auto lock function activates when all doors and hatch are closed, and the smart entry remote is within about 5 feet (1.5 m) radius of the outside door handle.

Exit vehicle while carrying smart entry remote and close door(s).

1. While within about 5 feet (1.5 m) radius of the vehicle.
 - The beeper sounds; the auto lock function will be activated.
2. Carry the smart entry remote beyond about 5 feet (1.5 m) from the vehicle and remain outside this range for 2 or more seconds.
 - Some exterior lights flash; the beeper sounds; all doors and hatch will then lock.

▣ Locking the doors and hatch (Walk away auto lock®)

The auto lock function is set to OFF as the factory default setting. The auto lock function can be set to ON using the audio/information screen.

If you set the auto lock function to ON using the audio/information screen, only the remote transmitter that was used to unlock the driver's door prior to the setting change can activate auto lock.

After the auto lock function has been activated, when you stay within the locking/unlocking operation range, the indicator on the smart entry remote will continue to flash until the doors are locked.

When you stay beside the vehicle within the operation range, the doors and hatch will automatically lock approximately 30 seconds after the auto lock function activating beeper sounds.

When you open a door or the hatch after the auto lock function activating beeper sounds, the auto lock function will be delayed until all doors and hatch are closed.

Opening/Closing the Hatch

When all the doors are unlocked or press the hatch unlock button on the remote transmitter, the hatch is unlocked. Press the hatch release button and lift open the hatch.

Models with smart entry system

If you are carrying the smart entry remote, you do not have to unlock the hatch before opening it.

All models

To close the hatch, grab the inner handle, pull the hatch down, and push it closed from outside.

If you close the hatch when the driver's door is locked, the hatch locks automatically.

- Some exterior lights flash.

►► Opening/Closing the Hatch

Models with smart entry system

- Do not leave the smart entry remote in the vehicle when you get out. Carry it with you.
- Even if you are not carrying the smart entry remote, you can unlock the hatch while someone else with the remote is within range.
- Do not leave the smart entry remote inside the cargo area and close the hatch when all the doors are locked. The beeper sounds and the hatch cannot be locked.
