Voice Control Operation

Your vehicle has a voice control system that allows hands-free operation.
The voice control system uses the 🗪 (Talk) and ☎ ⬑ (hang-up/back) buttons on the steering wheel and a microphone near the map lights on the ceiling.

■ Voice Recognition

To achieve optimum voice recognition when using the voice control system:

- Make sure the correct screen is displayed for the voice command that you are using.
  The system recognizes only certain commands.
  Available voice commands.
  ⥥ Voice Portal Screen P. 298
- Close the windows and moonroof.
- Adjust the dashboard and side vents so air does not blow onto the microphone on the ceiling.
- Speak clearly in a natural speaking voice without pausing between words.
- Reduce any background noise if possible. The system may misinterpret your command if more than one person is speaking at the same time.
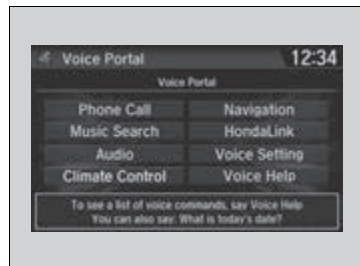

⟫Voice Control Operation

When you press the 🗪 button, a helpful prompt asks what you would like to do. Press and release the 🗪 button again to bypass this prompt and give a command.

⟫Voice Recognition

The voice control system can only be used from the driver's seat because the microphone unit removes noises from the front passenger's side.

Features

■ Voice Portal Screen

When the 🎤 (Talk) button is pressed, available voice commands appear on the screen.
For a complete list of commands, say "*Voice Help*" after the beep or select **Voice Help**.

You can see the list of commands in **Voice Info** on the **Info Menu** screen. Select **Info**, then select **MENU**.

The system only recognizes the commands on the following pages, at certain screens. Free form voice commands are not recognized.
