

Rear Seat Reminder

This feature alerts you to the possible presence of passengers or items in the second row or third row seats before you exit the vehicle. It activates when the vehicle is set to VEHICLE OFF if the rear doors were opened shortly before or after the vehicle was set to ON.

A reminder appears on the driver information interface and an alert will sound when the power mode is set to VEHICLE OFF.

A reminder appears on the audio/information screen when the power mode is set to VEHICLE OFF.

To dismiss the notification, select **Dismiss**.

▶▶ Rear Seat Reminder

When the power mode is set to VEHICLE OFF, the reminder comes on briefly, then the function is deactivated.

The reminder will not work if the power mode has not been set to ON within 10 minutes of operating the rear doors.

The system does not detect passengers in the rear seat(s). Instead, it can detect when a rear door is opened and closed, indicating that there may be something in the rear seat(s).

You can turn off the notification setting.
