

COOL BOX

Store beverages in a conveniently located box to keep them cool.

How It Works

- Store up to four 20-ounce bottles or six 12-ounce cans. Keep already cold drinks from becoming warm.
- Press COOL BOX to turn the system on or off. A green indicator light appears when the Cool Box is on. Cold air from the air conditioning system flows into and circulates within the box.

Usage Tips

- The Cool Box is not a refrigerator or cooler. It does not cool down warm drinks.
- Do not use ice.
- Do not store perishable items inside for an extended amount of time.
- Keep the box closed for best results.
- The box cannot be removed for cleaning.
- Because the air conditioning system is always on when the Cool Box is in use, fuel economy may be slightly reduced.
- If the ignition switch is turned to LOCK (0), the box maintains its temperature for one hour.
