Rear Cargo Cover*

Conceal your cargo below a retractable cover.

The retracted roll is held in place by hooks at the left and right edges.

**Extending the cover:** Lift and pull the flap rearward to unhook the roll. Attach the cover to the slots on both sides of the tailgate opening. Do not place items on the cargo cover.

**Retracting the cover:** Remove the cover from the slots and allow it to rewind smoothly. Lift the flap so the hooks can engage. Lower the flap. It will sit flat.

*if equipped
