

NAVIGATION

Learn how to enter a destination and operate the navigation system.

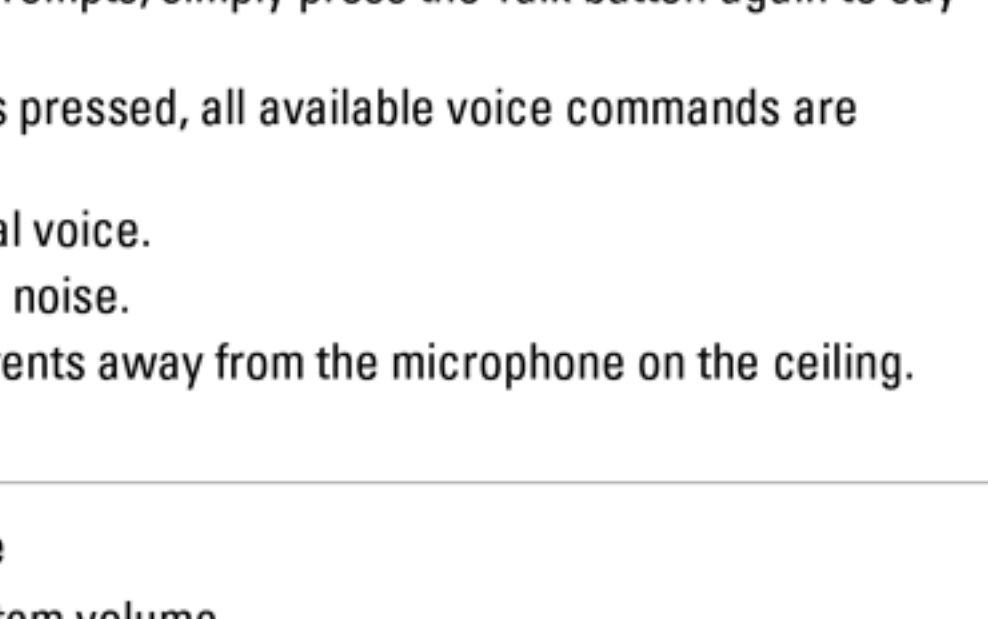

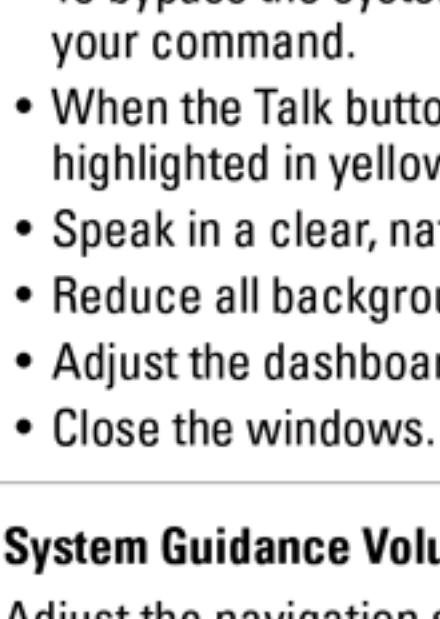

Basic Navigation Operation

A real-time navigation system uses GPS and a map database to show your current location and help guide you to a desired destination. You can operate the system using voice commands or the system controls.

To reduce the potential for driver distraction, certain manual functions may be inoperable or grayed out while the vehicle is moving. Voice commands are always available.

Steering Wheel Controls

Use the steering wheel controls to say voice commands.

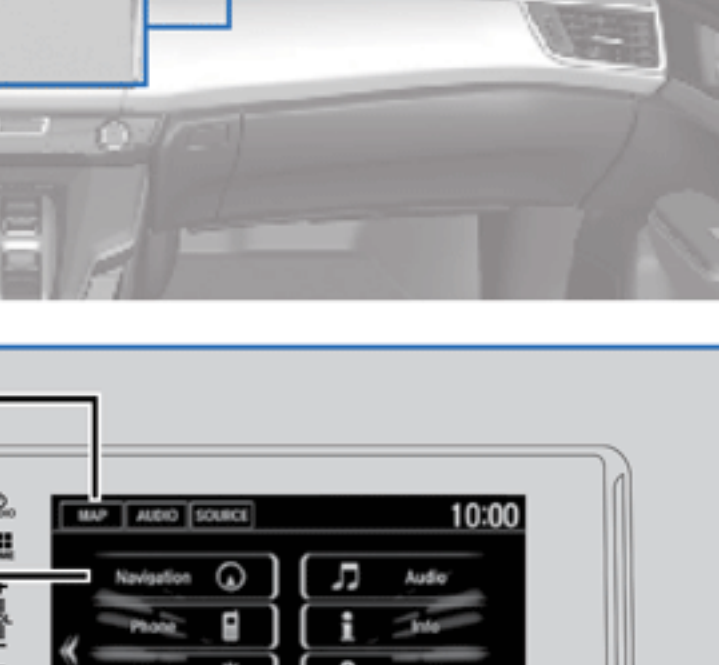

Talk Button Tips

- The system recognizes only the commands listed in the Voice Command Index
- When using the Talk button, wait until you hear a beep before speaking.
- To bypass the system prompts, simply press the Talk button again to say your command.
- When the Talk button is pressed, all available voice commands are highlighted in yellow.
- Speak in a clear, natural voice.
- Reduce all background noise.
- Adjust the dashboard vents away from the microphone on the ceiling.
- Close the windows.
