### Apple CarPlay™

Connect an Apple CarPlay-compatible iPhone to the system. You can use the touchscreen to make a phone call, listen to music, and more. Visit the Apple CarPlay website for more information.

When your iPhone is connected to Apple CarPlay, it is not possible to use the *Bluetooth* Audio or *Bluetooth* HandsFreeLink. However, other previously paired phones can stream audio via *Bluetooth* while Apple CarPlay is connected.

Park in a safe place before connecting your iPhone and launching any compatible apps.

1. Connect the iPhone to the center-console USB port (1.5A).
2. Apple CarPlay requires you to send vehicle information to Honda. Select Enable Once, Always Enable, or Cancel. Your phone may prompt you to allow access for CarPlay to be launched.
3. From the HOME screen, select Apple CarPlay.
4. Select a menu option.

**Phone:** Access your contacts, make phone calls, or listen to voicemail. While connected to Apple CarPlay, calls can only be made through Apple CarPlay, not through Bluetooth HandsFreeLink.

**Music:** Play music stored on your iPhone.

**Maps:** View a map and operate navigation. You can only use Apple CarPlay or the pre-installed navigation system to set a destination with routing guidance.

**Messages:** View and reply to text messages, or have messages read to you aloud by the system.

Once connected, press and hold the Talk button on the steering wheel to operate the system using voice commands with Siri Eyes Free
