

## Models with Display Audio

## Android Auto™

Connect a compatible Android phone to the system. You can use the touchscreen to make a phone call, listen to music, and more. Visit the Android Auto website for more information.

Park in a safe place before connecting your smartphone and launching any compatible apps.

1. Download the Android Auto app to your phone.
2. Connect the phone to the front-console USB port. The phone is automatically paired. A tutorial also appears.
3. From the HOME screen, select Android Auto.
4. Android Auto requires you to send vehicle information to Honda. Select Enable Once, Always Enable, or Cancel.
5. Select a menu option.

- a Maps (Navigation):** View Google Maps and operate navigation. You can use only this system or the pre-installed navigation system (if equipped) to set a destination with routing guidance. You cannot enter destinations using the keyboard while the vehicle is moving.
- b Phone (Communications):** Make phone calls or listen to voicemail. While connected to Android Auto, calls can be made only through Android Auto, not through *Bluetooth* HandsFreeLink.
- c Google Now (Home Screen):** Display useful information organized by Android Auto into simple cards that appear only when needed.
- d Music and audio:** Play music from compatible apps. Select this icon to switch between music apps.
- e Go back to the Home Screen:** Go back to the vehicle system HOME screen.
- f Voice:** Use voice commands via Google Voice Search to operate Android Auto. You can also press and hold the Talk button on the steering wheel to say voice commands.
