# NAVIGATION

Learn how to enter a destination and operate the navigation system.

## Basic Navigation Operation

A real-time navigation system uses GPS and a map database to show your current location and help guide you to a desired destination. You can operate the system using voice commands or the system controls.

**To reduce the potential for driver distraction, certain manual functions may be inoperable or grayed out while the vehicle is moving. Voice commands are always available.**

### ■ Steering Wheel Controls

Use the steering wheel controls to say voice commands.

**Back button:** Press to cancel a command or operation.

**Talk button:** Press to say navigation commands.

### ■ Talk Button Tips

- The system recognizes only the commands listed in the Voice Command Index
- When using the Talk button, wait until you hear a beep before speaking.
- To bypass the system prompts, simply press the Talk button again to say your command.
- When the Talk button is pressed, all available voice commands are highlighted in yellow.
- Speak in a clear, natural voice.
- Reduce all background noise.
- Adjust the dashboard vents away from the microphone on the ceiling.
- Close the windows.
