

## Android Auto™\*1

When you connect an Android phone to the audio system via the USB, Android Auto™ is automatically initiated. When connected via Android Auto™, you can use the audio/information screen to access the Phone, Google Maps (Navigation), Google Play Music, and Google Now functions.

1. **Maps (Navigation):** Display Google Maps and use the navigation function just as you would with your Android phone. When the vehicle is in motion, it is not possible to make keyboard entries. Stop the vehicle in a safe location to undertake a search or provide other inputs.
2. **Phone (Communication):** Make and receive phone calls as well as listen to voicemail.
3. **Google Now (Home screen):** Display useful information organized by Android Auto™ into simple cards that appear just when they're needed.
4. **Music and audio:** Play Google Play Music and music apps that are compatible with Android Auto™. To switch between music apps, press this icon.
5. **Go back to the Home Screen**
6. **Voice:** Operate Android Auto™ with your voice.

Park in a safe place before connecting your Android smartphone and launching any compatible apps.

**Tip:** To prevent any potential issues, be sure to use a USB cable certified by USB-IF to be compliant with USB 2.0 Standard for Android Auto™.

*\*1 - If equipped*

*Depending on use, Android Auto can share certain vehicle information (e.g., vehicle location, speed, and other operating conditions) with Google and its service providers. See Google privacy policy for details regarding Google's use and handling of data uploaded by Android Auto. Use of Android Auto is at user's own risk, and is subject to agreement to the Android Auto terms of use, which are presented to the user when the Android Auto application is downloaded to the user's Android phone. Android Auto vehicle integration is provided "as is," and Honda cannot guarantee Android Auto operability or functionality now or in the future due to, among other conditions, changes in Android Auto software/Android operating system, service interruptions, or incompatibility or obsolescence of vehicle-integrated hardware or software. See dealer for details. Only use Android*
