

SMS Text Messaging and E-Mail*1

HFL can display newly received text messages as well as the last 20 messages received on a linked cell phone. Each received message can be read aloud and replied to using a fixed common phrase.

1. A pop-up appears and notifies you of a new text message.

2. Select Read to listen to the message.

The text message is displayed. The system automatically starts reading out the message.

3. To discontinue the message read-out, select Stop.

**1 - If equipped*
