

About Your Multi-View Rear Camera

The audio/information screen can display your vehicle's rear view.

The display automatically changes to a rear view when the shift lever is moved to **R**.

Multi-View Rear Camera Display Area

About Your Multi-View Rear Camera

The rear camera view is restricted. You cannot see the corner ends of the bumper or what is underneath the bumper. Its unique lens also makes objects appear closer or farther than they actually are.

Visually confirm that it is safe to drive before backing up. Certain conditions (such as weather, lighting, and high temperatures) may also restrict the rear view. Do not rely on the rearview display which does not give you all information about conditions at the back of your vehicle.

If the camera lens is covered with dirt or moisture, use a soft, moist cloth to keep the lens clean and free of debris.

You can change the **Fixed Guideline** and **Dynamic Guideline** settings.

Fixed Guideline

On: Guidelines appear when you shift into **R**.

Off: Guidelines do not appear.

Dynamic Guideline

On: Guidelines move according to the steering wheel direction.

Off: Guidelines do not move.

You can view three different camera angles on the audio/information screen.

Models with color audio system

Press the **LIST/SELECT** (selector) knob to switch the angle.

Models with display audio system

Touch the appropriate icon to switch the angle.

: Wide view

: Normal view

: Top down view

All models

- If the last used viewing mode was Wide or Normal, the same mode is selected the next time you put the transmission into **R**.
- If Top down view was last used before you turned off the engine, Wide View mode is selected next time you turn the ignition switch to ON **II**^{*1} and put the transmission into **R**.
- If Top down view was last used more than 10 seconds after you put the transmission out of **R**, Wide View mode is selected the next time you put the transmission into **R**.

*1: Models with the smart entry system have an **ENGINE START/STOP** button instead of an ignition switch.
