Locking and Unlocking the Doors

Key

This vehicle comes with the following key:

Use the keys to turn on and off the power system, and to lock and unlock all the doors, fuel fill door, and to open the trunk.

Built-in Key

The built-in key can be used to lock/unlock the doors when the smart entry remote battery becomes weak and the power door lock/unlock operation is disabled.

To remove the built-in key, slide the release knob and then pull out the key. To reinstall the built-in key, push the built-in key into the smart entry remote until it clicks.

Key

All the keys have an immobilizer system. The immobilizer system helps to protect against vehicle theft.

Follow the advice below to prevent damage to the keys:
- Do not leave the keys in direct sunlight, or in locations with high temperature or high humidity.
- Do not drop the keys or set heavy objects on them.
- Keep the keys away from liquids, dust, and sand.
- Do not take the keys apart except for replacing the battery.

If the circuits in the keys are damaged, the power system may not activate, and the remote transmitter may not work.

If the keys do not work properly, have them inspected by a dealer.

You can remotely turn the power system on using the remote engine start.
Locking and Unlocking the Doors

Low Smart Entry Remote Signal Strength

Controls

Contains a number that you will need if you purchase a replacement key.

In the following cases, locking/unlocking the doors and fuel fill door, opening the trunk, or activating the power system may be inhibited or operation may be unstable:

• Strong radio waves are being transmitted by nearby equipment.
• You are carrying the smart entry remote together with telecommunications equipment, laptop computers, cell phones, or wireless devices.
• A metallic object is touching or covering the smart entry remote.

Low Smart Entry Remote Signal Strength

Communication between the smart entry remote and the vehicle consumes the smart entry remote’s battery. Battery life is about two years, but this varies depending on regularity of use. The battery is consumed whenever the smart entry remote is receiving strong radio waves. Avoid placing it near electrical appliances such as televisions and personal computers.

Key Number Tag

Contains a number that you will need if you purchase a replacement key.

Key Number Tag

Keep the key number tag separate from the key in a safe place outside of your vehicle. If you wish to purchase an additional key, contact a dealer.

If you lose your key and you cannot activate the power system, contact a dealer.

Key Number Tag

Keep the key number tag separate from the key in a safe place outside of your vehicle. If you wish to purchase an additional key, contact a dealer.

If you lose your key and you cannot activate the power system, contact a dealer.
Locking and Unlocking the Doors from the Outside

When you carry the smart entry remote, you can lock/unlock the doors, fuel fill door, and open the trunk.

You can lock/unlock the doors and fuel fill door within a radius of about 32 inches (80 cm) of the outside door handle.

Touch the door lock sensor on the front door. Some exterior lights flash; the beeper sounds; all the doors, fuel fill door, and trunk lock; and the security system sets.

Do not leave the smart entry remote in the vehicle when you get out. Carry it with you.

Even if you are not carrying the smart entry remote, you can lock/unlock the doors while someone else with the remote is within range.

The door may be locked or unlocked if the door handle is covered with water in heavy rain or in a car wash if the smart entry remote is within range.

If you grip a front door handle or touch a door lock sensor wearing gloves, the door sensor may be slow to respond or may not respond by locking or unlocking the doors.

After locking the door, you have up to two seconds during which you can pull the door handle to confirm whether the door is locked. If you need to unlock the door immediately after locking it, wait at least two seconds before gripping the handle, otherwise the door will not unlock.
Locking and Unlocking the Doors

Locking/Unlocking the Doors from the Outside

Controls

■ Unlocking the doors and the trunk

Grab the driver’s door handle:
- The driver’s door and fuel fill door unlocks.
- Some exterior lights flash twice and the beeper sounds twice.

Grab the front passenger’s door handle:
- All the doors unlock.
- Some exterior lights flash twice and the beeper sounds twice.

Press the trunk release button:
- The trunk unlocks and opens.
- Some exterior lights flash twice and the beeper sounds.

Using the Smart Entry with Push Button Start System

- The door might not open if you pull it immediately after gripping the door handle. Grip the handle again and confirm that the door is unlocked before pulling the handle.
- Even within the 32 inches (80 cm) radius, you may not be able to lock/unlock the doors with the smart entry remote if it is above or below the outside handle.
- The smart entry remote may not operate if it is too close to the door and door glass.

The light flash, beep and door unlock mode settings can be customized using the audio/information screen.
Locking and Unlocking the Doors

Locking/Unlocking the Doors from the Outside

Controls

- Locking the doors and trunk (Walk away auto lock®)

When you walk away from the vehicle with all doors closed while carrying the smart entry remote, the doors will automatically lock. The auto lock function activates when all doors are closed, and the smart entry remote is within about 5 feet (1.5 m) radius of the outside door handle.

Exit vehicle while carrying smart entry remote and close door(s).

1. While within about 5 feet (1.5 m) radius of the vehicle.
   - The beeper sounds; the auto lock function will be activated.

2. Carry the smart entry remote beyond about 5 feet (1.5 m) from the vehicle and remain outside this range for 2 or more seconds.
   - Some exterior lights flash; the beeper sounds; all doors will then lock.

The auto lock function is set to OFF as the factory default setting. The auto lock function can be set to ON using the audio/information screen.

If you set the auto lock function to ON using the audio/information screen, only the smart entry remote that was used to unlock the driver’s door prior to the setting change can activate auto lock.

After the auto lock function has been activated, when you stay within the locking/unlocking operation range, the indicator on the smart entry remote will continue to flash until the doors are locked.

When you stay beside the vehicle within the operation range, the doors will automatically lock approximately 30 seconds after the auto lock function activating beeper sounds.

When you open a door after the auto lock function activating beeper sounds, the auto lock function will be canceled.

Under the following circumstances, the auto-lock function will not activate:
- The smart entry remote is inside the vehicle.
  - The beeper will not sound.
- The remote is taken out of its operational range before all the doors are closed.
  - The beeper will sound.

- The activation range of the auto lock function is about 5 feet (1.5 m)
Locking and Unlocking the Doors

Childproof Door Locks

The childproof door locks prevent the rear doors from being opened from the inside regardless of the position of the lock tab.

Setting the Childproof Door Locks

- Slide the lever in the rear door to the lock position, and close the door.

When opening the door
Open the door using the outside door handle.

Using the Master Door Lock Switch

Press the master door lock switch in as shown to lock or unlock all the doors and fuel fill door.

Using the Master Door Lock Switch

When you lock/unlock either front door using the master lock switch, all the other doors and fuel fill door lock/unlock at the same time.

Childproof Door Locks

To open the door from the inside when the childproof door lock is on, put the lock tab in the unlock position, lower the rear window, put your hand out of the window, and pull the outside door handle.
Auto Door Locking/Unlocking

Your vehicle locks or unlocks all doors automatically when a certain condition is met.

■ Auto Door Locking
   ■ Drive lock mode
   All doors lock when the vehicle’s speed reaches about 10 mph (15 km/h).

■ Auto Door Unlocking
   ■ Driver’s door open mode
   All doors unlock when the driver’s door is opened.
Opening and Closing the Trunk

Precautions for Opening/Closing the Trunk

■ Opening the trunk
Open the trunk all the way.
► If it is not fully opened, the trunk lid may begin to close under its own weight.

■ Closing the trunk
Keep the trunk lid closed while driving to:
► Avoid possible damage.
► Prevent exhaust gas from leaking into the vehicle.

Using the Trunk Opener
Press and hold the trunk opener on the driver's door to unlock and open the trunk.
Opening and Closing the Trunk

Using the Trunk Release Button

Push up the release button on the trunk lid after the doors are unlocked.

Even if the trunk is locked, you can open the trunk if you carry the smart entry remote. Some exterior lights flash twice and the beeper sounds.

Using the Remote Transmitter

Press the trunk release button for approximately one second to unlock and open the trunk.

- If you forget the smart entry remote inside, the beeper will sound and the trunk will not close.
- A person who is not carrying the smart entry remote can unlock the trunk if a person who is carrying it is within range.
- If the beeper sounds after you close the trunk, move the smart entry remote away from the trunk and close again.
- The smart entry remote may not operate if it is too close to the trunk.
Opening and Closing the Trunk

Trunk Main Switch

The trunk main switch disables the trunk release button on the remote transmitter, trunk release button on the trunk lid and trunk opener on the driver’s door to protect luggage in the trunk.

1. Make sure the rear seat-back is not folded down.
2. Turn off the trunk main switch in the glove box.
3. Lock the glove box.

Emergency Trunk Opener

The trunk release lever allows you to open the trunk from inside for your safety.

Slide the release lever in the direction of the arrow.

If you need to give the key to someone else, remove the built-in key from the smart entry remote by sliding the release knob, and give the remote as a valet key.

Parents should decide if their children should be shown how to use this feature.
