Streaming Applications

Your vehicle’s Blu-ray/DVD rear entertainment system comes pre-loaded with audio and video streaming applications.

Before launching any application, first confirm that your vehicle’s date and time are set correctly. Having the incorrect date and time settings may prevent your applications from operating correctly. You can set the date and time on the front display in the following steps.

Select Home ➜ Settings ➜ Date & Time ➜ Set Date & Time

Your vehicle is equipped with the ability to apply software updates. When a software update is provided to your vehicle, please accept the update and allow the installation to complete.

Disclaimer:
The video and audio quality of your streaming applications will depend on your internet connection. If you experience lagging or disconnections, check your connection and confirm it is operational.

* Not available on all models
