

Voice Control Operation

Your vehicle has a voice control system that allows hands-free operation. The voice control system uses the  (Talk) and  (hang-up/back) buttons on the steering wheel and a microphone near the map lights on the ceiling.

Voice Recognition

To achieve optimum voice recognition when using the voice control system:

- Make sure the correct screen is displayed for the voice command that you are using.

The system recognizes only certain commands. Available voice commands.

 **Voice Portal Screen** P. 279

- Close the windows and moonroof*.
- Adjust the dashboard and side vents so air does not blow onto the microphone on the ceiling.
- Speak clearly in a natural speaking voice without pausing between words.
- Reduce any background noise if possible. The system may misinterpret your command if more than one person is speaking at the same time.

Voice Control Operation

When you press the  button, a helpful prompt asks what you would like to do. Press and release the  button again to bypass this prompt and give a command.

Voice Recognition

The voice control system can only be used from the driver's seat because the microphone unit removes noises from the front passenger's side.

Voice Portal Screen

When the  (Talk) button is pressed, available voice commands appear on the screen.

For a complete list of commands, say "Voice Help" after the beep or select **Voice Help**.

You can also see the list of commands by selecting **Info**, , and **Voice Info**.

The system only recognizes the commands on the following pages, at certain screens. Free-form voice commands are not recognized.

Phone Call

This can be only used when the phone is connected. When the system recognizes the *Phone call* command, the screen will change to the voice recognition screen for the phone commands.

- *Dial by number*
- *Call history*
- *Redial*
- *Call <Your Contact Name>*
- *Call <Phone Number>*

Phone Call commands are not available if using Apple CarPlay.

Music Search*1

This can be only used when the iPod or USB device is connected.

Audio*1

When the system recognizes the *Audio* command, the screen will change to the audio voice recognition screen.

- *Audio On*
- *Audio Off*
- *Radio FM*
- *Radio AM*
- *Radio SXM**
- *iPod*
- *USB*

Navigation*1

The screen changes to the navigation voice recognition screen.

 **Refer to the Navigation System Manual**

Voice Settings

The screen changes to the **Voice Recog** tab on the **System settings** screen.
