

## Voice Control Operation

Your vehicle has a voice control system that allows hands-free operation.

The voice control system uses the  (talk) and  (back) buttons on the steering wheel and a microphone near the map lights on the ceiling.

### Voice Recognition

To achieve optimum voice recognition when using the voice control system:

- Make sure the correct screen is displayed for the voice command that you are using.

The system recognizes only certain commands.

Available voice commands.

 **Voice Portal Screen** P. 296

- Close the windows and moonroof\*.
- Adjust the dashboard and side vents so air does not blow onto the microphone on the ceiling.
- Speak clearly in a clear, natural speaking voice without pausing between words.
- Reduce any background noise if possible. The system may misinterpret your command if more than one person is speaking at the same time.

#### Voice Control Operation

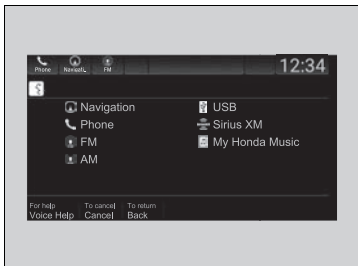

When you press the  button, a helpful prompt asks what you would like to do. Press and release the  button again to bypass this prompt and give a command.

#### Voice Recognition

The voice control system can only be used from the driver's seat because the microphone unit removes noises from the front passenger's side.

\* Not available on all models

## ■ Voice Portal Screen

When the  (talk) button is pressed, available voice commands appear on the screen.

For a complete list of commands, say "Voice Help" after the beep.

The system only recognizes the commands on the following pages, at certain screens. Free form voice commands are not recognized.

\*1: Models with navigation system

\* Not available on all models

## ■ Phone

This can be only used when the phone is connected. When the system recognizes the *Phone* command, the screen will change the dedicated screen for the voice recognition of the phone.
