

## Intelligent Traction Management

The Intelligent Traction Management optimizes vehicle performance to help you drive on various surfaces. The system has available modes to select from: **Normal**, **Snow**, **Mud**<sup>\*</sup>, and **Sand**<sup>\*</sup>.

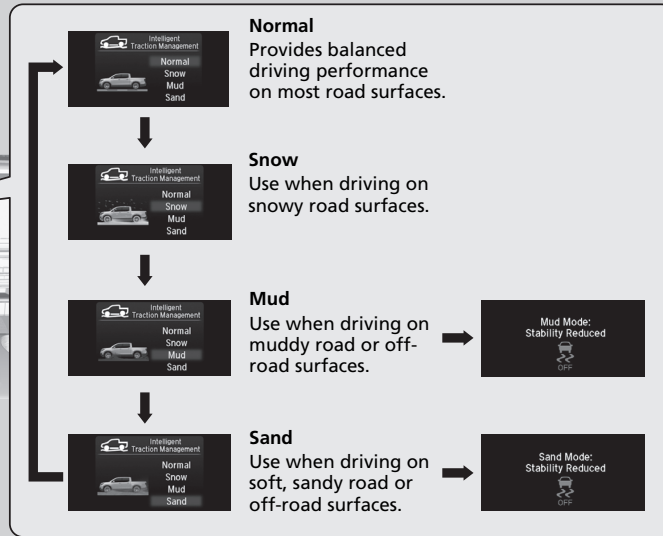

Press the mode button to select the appropriate mode. The mode you select appears on the multi-information display. When the vehicle is turned off and restarted, Intelligent Traction Management mode will revert to Normal.

### Intelligent Traction Management

Refer to the Off-Highway Driving section for driving tips and safety precautions.

2WD models

The diagram illustrates the location of the SNOW Button in the driver's footwell area. A callout box shows a close-up of the button, which is labeled "SNOW Button". An arrow points from the button to the Intelligent Traction Management menu. The menu displays two options: "Normal" and "Snow".

**Normal**  
Provides balanced driving performance on most road surfaces.

**Snow**  
Use when driving on snowy road surfaces.
